

Origami Note Rose

This rose is a cute way to pass a note to that special someone. They are simple to make and with practice can be made in under 5 minutes. The best part is that you don't need special origami paper to make them; the rose only requires notebook or printer paper.

Step 1: Get note book paper.

Step 2: Cut the paper in half. Then cut one of them in half to make quarter sections

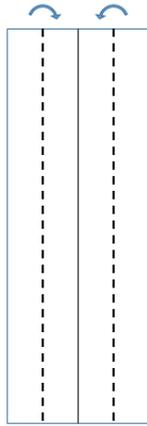

Rose Bud

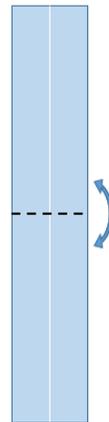

Step 3: Put the quarter sections away.

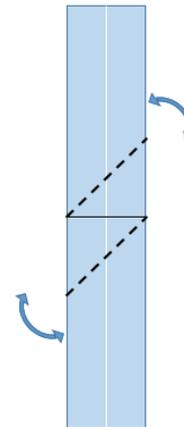

Step 4: Fold the 1/2 section in half and open again.

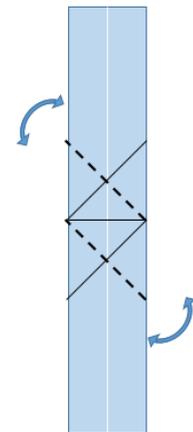

Step 5: Fold the edges along the center fold.

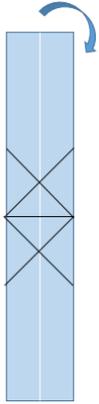

Step 6: Fold in half length-wise and open again.

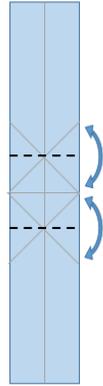

Step 7: Fold the edges diagonally along the center fold and open again.

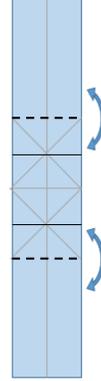

Step 8: Fold the other edges diagonally along the center fold and open again.

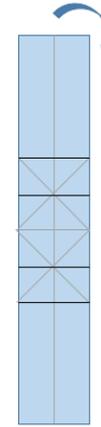

Step 9: Flip the paper over.

Step 10: Make two folds in the center of the X's.

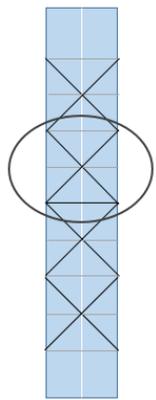

Step 11: Make two folds in above and below the X's.

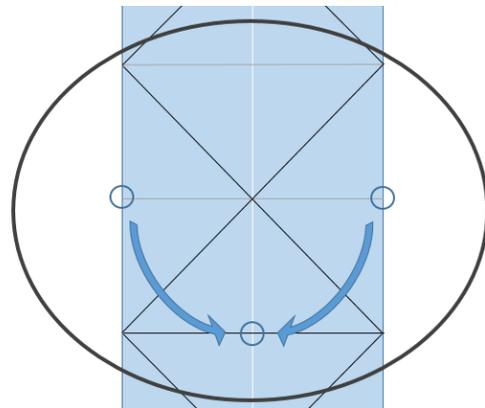

Step 12: Flip the paper over.

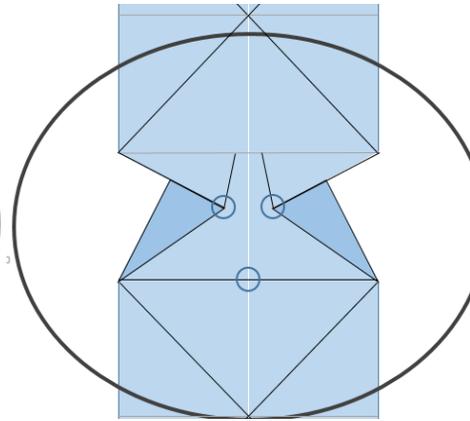

Step 13: Repeat steps 7-12 above and below the two X's to make a total of 4 X's.

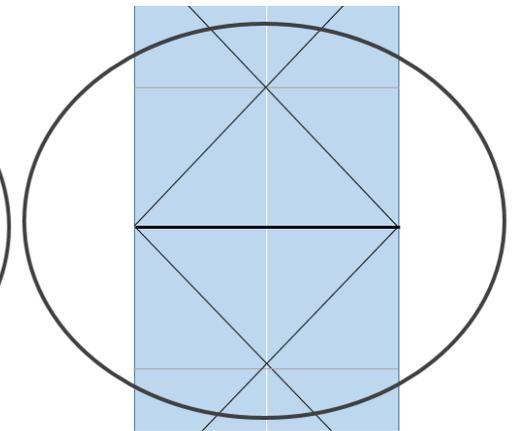

Step 14: Collapse the four X's into the water-bomb (balloon) base.

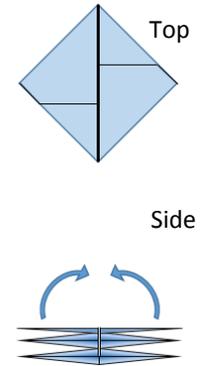

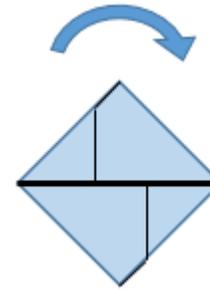

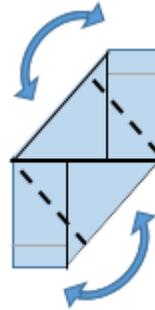

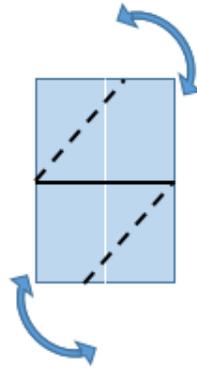

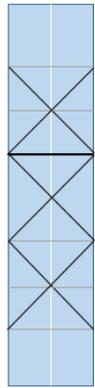

Step 14 a: Fold along the diagonals to make the middle of the edge meet the bottom center of the X.

Step 14 b: Continue to fold the diagonals to the bottom center.

Step 14 c: Collapse the balloon base flat so it is completely hidden under the rest of the paper.

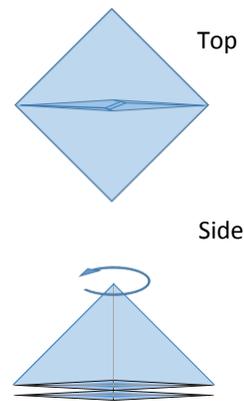

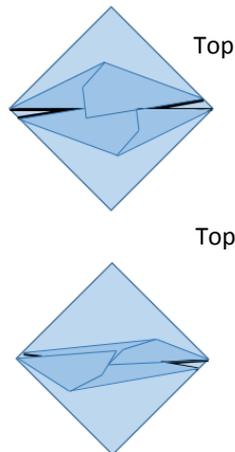

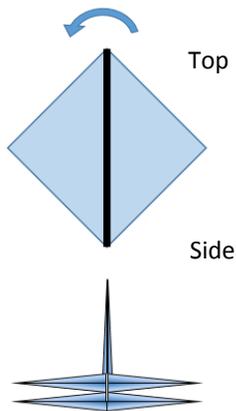

Step 15: Repeat steps 15-17 and collapse the other 3 X's into the waterbomb (balloon) base.

Step 16: Fold the other edges diagonally along the center and open again.

Step 17: Fold in the final flaps to align with the water bomb base.

Step 18: Rotate the rose base 90 degrees.

Step 19: Fold the final flaps up.

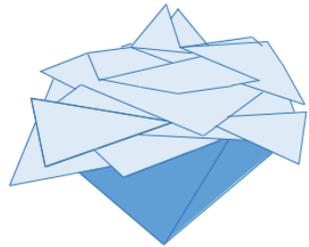

Step 20: Rotate the rose base 90 degrees.

Step 21: Take the final two flaps and hook them inside each other.

Step 22: Pinch the sides of the hooked flaps tightly and press them together in order to make a tight twist.

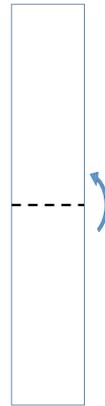

Step 23: Continue to twist.

Step 24: Adjust the position of the petals if necessary.

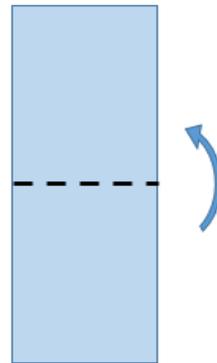

Step 25: Primp the petals of the rose by folding them down.

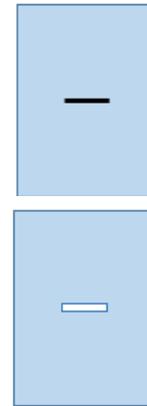

Base

Step 26: Start making the base by first taking the a quarter section and folding it in half width-wise.

Step 27: Fold the paper in half again.

Step 28: Pinch it in half length-wise and make a split in the paper half way down to the edge .

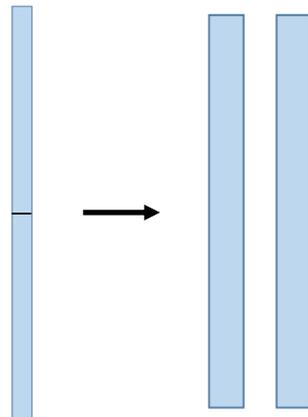

Stem

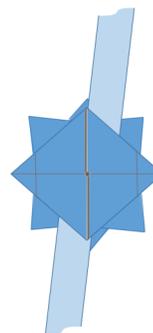

Step 29: Start making the stem by taking the final quarter section and folding it in half.

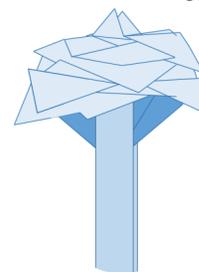

Step 30: Fold in half again.

Step 31: Cut the piece in half length-wise.

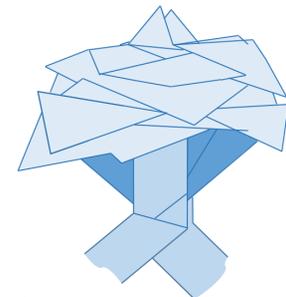

Bottom

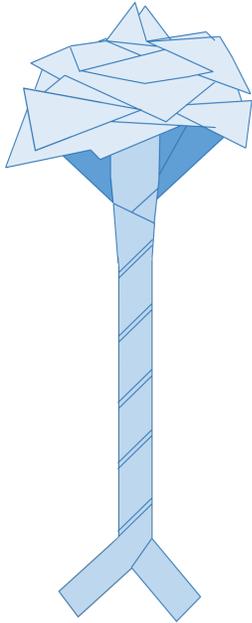

Side

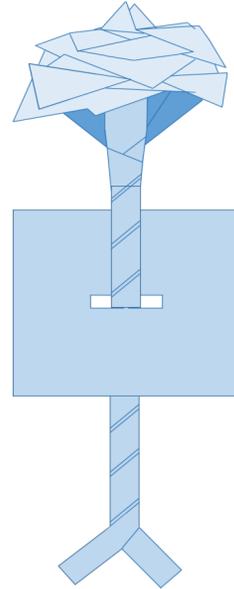

Step 33: Insert each of the stem pieces into the last petal on the bottom of the rose bud.

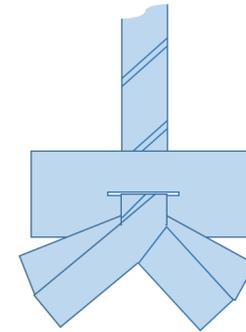

Step 34: Fold both of the stem pieces at roughly a 45 degree angle at the base of the rose bud.

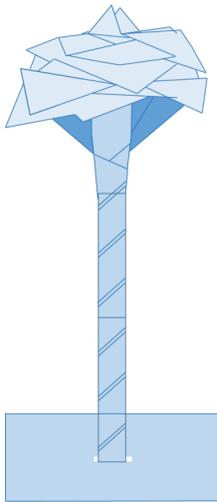

Step 35: Begin to tightly twist the stem pieces together. Continue to twist until there are two small tabs at the end of the stem

Step 36: Carefully pull the stem through the base.

Step 37: Flatten the two tabs on the stem to the bottom of the base.

Step 38: Write on it!

Spread the love!
